Other new products

Cyclone rotary cleaner & HydroJet Dual Wash

THE NEW 2010 CYCLONE ROTARY CLEANER

CYCLONE: PRECISION MEDICAL CLEANING

The Austin American Technology Cyclone system is designed from the ground up towards meeting medical cleaning requirements while maintaining full analytical process control. The Cyclone system features a custom-tailored unified manifold designed on a per-project basis. Allowing the system to be fully optimized to each and every medical application. The system has currently been implemented in FDA certified facilities, with a fully certified process in cleaning individual lead components and removing production debris from fully assembled pacemaker and defibrillator devices.

Need GREAT Service?

We have what you need! Would you rather upgrade, repair or refurb your existing AAT cleaner? We have the best service that a company could offer for our existing batch or inline cleaning equipment. Our service department is at your disposal for PM's or repairs or refurb's necessary to maintain or bring your equipment back to life. Contact either Ron Russell or David Jeffers at 512-756-4150 to discuss any needs you may have.

2010 New Product Concept

HYDROJET DW: DUAL-WASH INLINE SYSTEM

- Patented Drying Technology
- Dual Wash tanks allows 2 chemistries/2 temperatures
- High Production Yields
- Superior Durability for Long Life and Low Downtime
- Flexible Design Provides Upgrades Without Increasing Footprint
