## Austin American Technology

Press Release

### AUSTIN AMERICAN TECHNOLOGY SIGNS 3 NEW REP FIRMS!

**Burnet, TX - August 4, 2011 - Austin American Technology corp.** (AAT) is pleased to announce that they have recently signed up 3 new sales representative firms to represent their industry leading batch, in-line and universal cleaning systems for the electronics industry.

Sterling Hornbuckle, North American & European Sales Manager, said "We had been looking for strategic partners for areas of the US where we needed local coverage that did not have cleaning equipment in their product line up." "We are very pleased to announce that Aligned Solutions, SanTec Marketing and Assembly Solutions will be representing AAT's entire cleaning product line."

Aligned Solutions will be representing AAT in Michigan, Ohio, Indiana, Kentucky and West Virginia. Aligned Solutions has been successfully serving the greater mid-west since 1976. <http://www.alignedsolutionsinc.com/>

SanTec Marketing covers Nevada, Arizona and New Mexico. They are based in Arizona and represent many of today's leading companies for industrial tools and production systems and now AAT's cleaners. <http://www.santecmarketing.com/>

Assembly Solutions now represents all of AAT's cleaners in North and South Carolina. <http://www.assemblysolutions-llc.com/>

**About Austin American Technology:** Engineers and manufacturers high performance cleaning systems. From general purpose to high reliability requirements, AAT systems are design-driven by the science of cleaning. Our systems include batch and inline; aqueous and solvent; spray in air and spray under immersion with ultrasonic. Visit [www.aat-corp.com](http://www.aat-corp.com)

*"Austin American Technology's in-line cleaning systems with its overall shorter length, Progressive Energy Dynamics (PED), vectored coherent jet washing technology, patented jet manifolds with displacement drying technologies provide the fastest throughput and best cleaning results with the lowest operating costs and the easiest to maintain in-line cleaners in the industry."*
