NanoJet Video Released

Austin American Technology's (AAT) NanoJet™ In-Line Cleaner breaks performance records

[Click Here for NanoJet Video](#)

- As low as 3 Minute Cycle Time* full chemistry wash, isolation, rinse, final rinse and dry. *Cycle times tested showed boards completely washed, rinsed and dried range from 3 minutes to 12 minutes.
- Progressive Energy Dynamics (PED) wash technology
- Patented Displacement Drying Technology
- 8' X 4' Foot Print including on-load and off-load (32ft²)
- The NanoJet™ has a closed loop rinse system pre-plumbed for your carbon and DI tanks.
- Cleaning Green:
 - Saves chemistry
 - Saves water
 - Lowers operating costs
 - Saves money and the environment

Don't believe it? Seeing is believing!

Austin American Technology: Engineers and manufactures high performance cleaning systems. From general purpose to high reliability requirements, AAT systems are design-driven by the science of cleaning green. Our systems include batch and inline; aqueous and solvent; spray in air and spray under immersion with ultrasonic.

"Austin American Technology's in-line cleaning systems with its overall shorter length, Progressive Energy Dynamics (PED), vectored coherent jet washing technology, patented jet manifolds with displacement drying technologies provide the fastest throughput and best cleaning results with the lowest operating costs and the easiest to maintain in-line cleaners in the industry."

Call AAT today to discuss how we can help you save money and the environment or visit www.aat-corp.com
