

Welcoming 2 New Additions to Our AAT Family!

We are announcing a few position changes and additions to Austin American Technology. Please update your contacts for the following:

Jack Harris, our new Sales Manager, is recognized for his excellent service to his customers and for his knowledge of electronics assembly. He has successfully passed IPC courses for PCB repair and has been an active member of the SMTA for many years, the last 7 years serving in various officer positions in the Dallas SMTA Chapter.

Jack will be managing all the reps in North America, developing sales programs/specials, training reps, evaluating customer process requirements and suggesting solutions, running customer demo/testing, involved in advertising decisions, attending trade shows, giving technical speeches, negotiating POs, involved in new equipment design and development, and selling AAT equipment.

Randy Allen, our New Product Specialist, has worked as a Technician for many years. He entered the Military as an Aircraft Hydraulic/Pneumatics' Technician. After 12 years he started Recruiting for the Military in which he was very successful. Randy served as a Technician in other capacities working at DELL building servers and high-end gaming machines. He also worked at Samsung as an Engineering Technician before relocating to Austin American Technology.

Randy will be doing all the things that he loves to do in one Job. He will be providing Technical Support for all customers with AAT Cleaners. Randy will also assist customers with new equipment needs, Quality Approval, Product Improvement, Sales support, Start-up assistance and Customer Training.
